COMING EVENTS

Wednesday, May 28 (7-9 PM) Eddie Bauer, Seattle Store, 5th & Union
Thursday, May 29 (7-9PM) Eddie Bauer, Bellevue Store, Bellevue Square
Clayton Smith will present a more detailed discussion of the map and compass and orienteering around the world. Included will be international map colors and symbols. A short film, "The Invisible Force of Direction" will be shown.

Saturday, May 31 FUN TREK '80 Seward Park. This is THE BIG EVENT. It is the culmination of the COC-Eddie Bauer Fun Trek '80 effort. We will have white, yellow, orange, and red courses, with recreational & competitive categories for each course. The start will be in the picnic area at the top of the hill in Seward Park. The park is on the south portion of Lake Washington in Seattle Metro buslines #31 & #39 service it. People may begin anytime between 10AM and 3PM. Courses will close at 5PM.

Pre-registration for non-COC members will be at the Eddie Bauer stores in Seattle & Bellevue, or may be mailed to the Club. A non-member fee of \$3 will be charged. Members will pay \$2. Registration will also be held at the meet on May 31.

Prizes will be awarded as follows in all courses and in both Recreational & Competitive Categories; *
1st place-Silva compass & \$50 Eddie Bauer Gift Certificate

2nd place-\$40 Eddie Bauer Gift Cert.
3rd place-\$30 Eddie Bauer Gift Cert.
4th place-\$20 Eddie Bauer Gift Certificate.

All Finishers who successfully complete a course will receive an Eddie Bauer T-shirt and a certificate.

* Recreational category is intended for novices & those who have attended only 1 or 2 meets.

Competitive category is intended for experienced orienteers who feel confident in their map & compass skills.

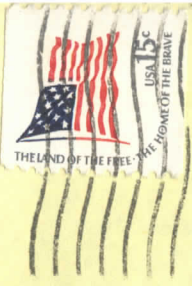

We will be using a new, very detailed 1:5000, 4-color, 2.5 meter contour orienteering map of Seward Park prepared by Charlie Bock. Charlie will design the courses & Dave Enger will be the Meet Director.

Friday, June 6 Post Fun Trek '80 Party
Charlie Bock has volunteered his house for this event. Look for orienteering control markers in his driveway at 1202 134th Ave. NE in Bellevue (phone 641-4791). All club members are invited, especially those who have helped with Fun Trek '80. It will be a barbecue. Please bring your own food (i.e. hamburger, hot dogs, steak, buns, salad, chips, etc.). Plates, cups, utensils, etc. will be provided. But B.Y.O.B. Possible slide show of past meets will be shown.

Sunday, June 8 Campbell Valley Park
This is a meet sponsored by the Vancouver, B.C. Orienteering Club. The person to contact if you are interested in attending is Charlie Fox (604)888-8570. For more information, you may write to:

NATIONAL EVENT RESULTS

UNIVERSITY OF NEVADA AT RENO
April 26 & 27, 1980 - Sponsor:
Military Science Department

Over 60 participants competed in blue, red, orange, yellow, & white courses in the 2-day event. Each individual ran 1 course per day & the winning scores combined the times for both days. Six members from COC went down to Reno and brought back 6 trophies.

Goran Larsson - 2nd place, Blue course.

Goran Larsson, Clayton Smith, & Mark Hawley - 3rd place, Blue Team.

Mike Schuh - 2nd place, Men's Div. Red Course.

Dave Enger - 3rd place, Men's Div. Red Course.

Berith Larsson - 2nd place, Women's Div. Red Course.

Mike Schuth, Berith Larsson, & Dave Enger - 2nd place, Red Team.

Special Feature

At several of the past business meetings Goran Larsson has given marvelous short talks to our membership on International Map Symbols and Colors. Thus continuing what Goran has begun, enclosed within this newsletter is an expanded form of the symbols and descriptions as used by the International Orienteering Federation in all of its national and international meets. PLEASE SAVE THE IOF SYMBOL SHEET as it will not be mailed in other newsletters. This month the explanations have been enclosed and next month various clue sheets from IOF Championships will be included to try your luck at them...the answers will also be given! This is all in preparation so that our club can begin using them at meets.

10F SYMBOLS: SHORTHAND

(reprinted from Orienteering USA, vol 6 no.1)

IOF (International Orienteering Federation) has devised a new system for giving participants their "clues" or "control descriptions" at orienteering meets. It was specially designed for meets where more than one language is needed, but it is also very useful at any meet with a fairly large number of controls. The system makes things easier for the organizer and is learned extremely quickly by any orienteer. Its use is based on symbols rather than words. It may look complicated at first, but only because it is something different. It is really convenient and enables you to read the description at just a glance.

This is the lay-out. The Roman Numerals and letters refer to points made in the article and are not incorporated into the actual sheet of descriptions.

Numerals I - III are the heading. Letters A - H are the actual descriptions. Each square should be about 7 mm x 7 mm. The darker lines help the eye to pick up the spot wanted. Numeral IV is the finish information.

[illegible]

HEADING

- I Class or classes using this particular description set.
II Bee-line course length in kilometers.
III The amount of climbing in meters by the best route.

DESCRIPTIONS

The eight columns are headed A-H; all columns are not necessarily used for any one control.

- A: The control number; e.g.: 3 the third one on your course.
B: The control code designation shown on the control marker;
e.g.: QA or 64, etc.
C: Which one of the features out of several similar ones;
e.g.: the eastern boulder, northern reentrant, etc.
D: The control feature itself; e.g.: boulder, reentrant, etc.
E & F: used to give details about the control feature.
F: Dimensions of the feature, if applicable.
G: The location of the control marker relative to the control feature.
H: Other important information.

Example: At Control #3 there are refreshments... as shown by the symbols on the left.

A	B	C	D	E	F	G	H
3	AX	→			8x6	F	0

The thicker lines appear before the **most** important information.

- A. Control No. 3
- B. Code No. AX
- C. Eastern
- D. Meadow
- E. Overgrown
- F. 8 x 6 m
- G. Northwest corner
- H. refreshments

Columns A & B should be self-explanatory but the rest need further explanation.

Column C: C WHICH FEATURE

		<u>Southern</u> (marsh)
		<u>Northeastern</u> (knoll)
		<u>Upper</u> (cliff)
		<u>Lower</u> (path)
		<u>Middle</u> (boulder)
		<u>Between</u> (hills)
		<u>Between</u> (knoll and hill)

SPECIAL FEATURES

When used as controls, "Special Features" should be very clearly described beforehand (in the briefing) For the Special Feature Symbol one of the following symbols should be used:

If any of the special features are to be used, the organizer should inform the competitors ahead of time what they stand for. It also helps if the standard symbols to be used (or those which will not be used, which ever list is shorter) are listed ahead of time for display.

Columns E & F:

(D)	E	F	COMBINATIONS
			Path-crossing
			Path-track crossing
